

Loomis Basin Equine

MEDICAL CENTER

Equine Healthcare Program

Loomis Basin Equine Medical Center, Inc. is offering an Equine Healthcare Program. Annual examinations, routine dental care, vaccinations and deworming help to improve the health of your horse.

What are the benefits to this Program?

- No emergency fees for after-hour appointments
- \$5,000 credit towards surgical treatment of colic performed at Loomis Basin Equine Medical Center
- Additional discounts on specified medication purchases (i.e. Adequan, Gastrogard, Legend)
- Additional discounts on specific elective surgeries

What are the requirements for enrollment?

One scheduled veterinary appointment per year to include:

1. Routine physical exam
2. Routine teeth float (*exceptions for younger horses*)
3. Annual required vaccinations (*possible exceptions*):
 - a. 3-Way w/ West Nile
4. Deworming: Recommend Fecal egg count twice yearly (*Spring and Fall*)

Requirements must be met prior to acceptance into program and we can include vaccines, exams and dentals that were during the past 12 months (if you have the required routine work performed by another veterinarian, please contact them for options to enroll in this program). The coverage offered through this program is in addition to the benefits provided by Preventicare.

For questions or enrollment, please call our office at (916) 652-7645
